Subject: A Tribute of Respect for Your Message of Wisdom and Human Values

Dear Swamiji,

It is with great humility that we acknowledge your gracious gesture of presenting copies of your revered work, "The Wanderer Who Owns the World", to VVS., K.H.Patil School of Law, Vidyanagar Hubballi.

The legal profession deals with questions of rights, duties, justice, and the conduct of human affairs. Yet, behind every law stands a human being, and behind every decision lies the conscience of the individual. It is in this space between law and life that wisdom assumes its greatest importance.

Your work offers an opportunity for our students to pause from the study of legal provisions and reflect upon the values that give meaning to justice. The ideas of self-awareness, responsibility, truth, and righteous conduct are timeless principles that have relevance not only in spiritual life but also in the formation of responsible citizens and ethical professionals.

We are particularly grateful that your work has reached an institution where young minds are preparing to enter a profession entrusted with the protection of justice and the rights of society. We hope that your words will encourage our students to look beyond the letter of the law and appreciate the deeper spirit of fairness, humanity, and moral responsibility.

Your generous gesture is therefore received not merely as a contribution of books, but as an invitation to reflect, question, and grow. We shall preserve these copies with due regard and make them available to those who wish to engage with the thoughts and wisdom contained within them.

Please accept our profound respects and sincere appreciation for this meaningful gesture. May your spiritual journey and teachings continue to illuminate minds and inspire generations to live with greater awareness, compassion, and integrity.

With respectful regards,

Principal
K. H. Patil School of Law,
Hubballi-580031.
